

BILTMORE™

Architectural Shingles

COLOUR FEATURED: DUAL BLACK

Your roof will look as great as it performs.

BEAUTIFUL OPTIONS

BILTMORE is the most popular shingle among contractors and discerning homeowners alike.

Biltmore shingles add architectural interest that boosts your home's curb appeal. Their dimensional profile and deep shadow bands mimic the look of wood shake construction to create a

high-end designer look for your home, all at an affordable cost. Choose from a huge array of colours to coordinate perfectly with your home's style; whether rustic or urban, traditional or modern.

When you choose **Biltmore**, your new roof will keep on looking as great as it performs.

- Algae-resistant granules help inhibit discolouration caused by blue-green algae.
- 15-Year CRC Iron Clad Protection¹.
- Limited Lifetime Warranty¹.
- Includes up to 177 km/h (110 mph) Limited Wind Warranty¹.
- Optional Limited High Wind Warranty upgrade to 210 km/h (130 mph) available^{1,2}.

¹ See Limited Warranty at Canroof.com for complete terms, conditions, restrictions and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements.

² High Wind Application is required.

Colour featured: **Driftwood**

Colour featured: **Dual Brown**

Colour featured: **Weatherwood**

BILTMORE COLOUR BLENDS

NOTE: Colours BELOW are not available in Western Canada

⁵ Packaged in IKO Wrappers. ⁶ Slate is a similar colour blend to Harvard Slate.

⁷ Blue granules may fade after extensive exposure to the sun's ultraviolet rays.

Note: To ensure complete satisfaction, please view several full-size shingles and an actual roof installation prior to final colour selection as the shingle swatches and photography shown online, in brochures and in our app may not accurately reflect shingle colour, and do not fully represent the entire colour blend range, nor the impact of sunlight.

PRODUCT SPECIFICATIONS²

LENGTH	1,038 mm (40-7/8 in)
WIDTH	349 mm (13-3/4 in)
EXPOSURE	149 mm (5-7/8 in)

Three bundles = One full square
That's 100 sq. ft. coverage

SYSTEM COMPONENTS

1. Ice & Water Protector

STORMTAMER® ICE & WATER PROTECTOR

Ice & Water Protector provides a second line of defense against water penetration due to ice dams or wind-driven rain and the costly damage it can cause. This product is also strongly recommended for sealing around vents, low pitch areas, ridges, hips, rake edges, chimneys, dormers, vent stacks and skylights.

2. Underlayment

ROOFGARD – COOL GREY™ OR STORMTITE® UNDERLAYMENT

Use the innovative RoofGard – Cool Grey or Stormtite synthetic underlayment for total deck protection.

3. Starter Strips

LEADING EDGE PLUS™ STARTER STRIPS

Fast, easy and convenient. Starter strips that are already cut to size save valuable time during the installation of the first course of shingles. Compatible with all existing CRC shingles, Leading Edge Plus includes a sealant strip at the bottom edge, allowing for a tight seal.

4. Ridge Cap Shingles

HIP & RIDGE PLUS™ OR ULTRA HP® HIGH PROFILE RIDGE CAP SHINGLES

Ridge cap shingles are required where roof planes meet and provide additional protection along these high-stress areas of the roof, enhancing your home's aesthetic appeal by accentuating the roofline.

SHINGLES ALONE ARE USUALLY NOT ENOUGH TO PROTECT A HOME.
CRC has developed superior multilayered roofing components incorporating our industry-leading products.

Find out more about our products now by talking to a CRC sales representative or your professional roofing contractor or contact us directly at: **1-855-CRC-ROOF (1-855-272-7663)**. Or visit our website at: **CANROOF.COM**.

¹ See Limited Warranty at Canroof.com for complete terms, conditions, restrictions and application requirements. Shingles must be applied in accordance with application instructions and local building code requirements.

² High Wind Application is required.
